    - Polyline<points>
    - Properties
      - Property<name,value>

▇ : fully supported yet
▇ : not fully support yet
  : not supported at all

Developper : A.DEPASSE
Specials thanks : CANADADRY (for his code wich help me lot to begin this project).
TinyXML wich provides me a fully support for loading and using generic XML files (under zlib license)
